

FinishLine Racing

Incredible Adventures and FinishLine Racing School invite you to climb inside an authentic NASCAR Winston Competition, late model car for an incredible driving adventure.

Short track racing is where future champions of NASCAR and INDY get their start. You'll learn from the same instructors that prepare drivers for professional racing careers.

Intro To Short Track Racing **One Day Driving Adventure \$1395**

(estimated laps: 34)

Get a taste of what most only dream about - the thrill of driving an authentic FinishLine Racing School race car! Learn the art of car control and basic racing tactics from race school instructors who are champions in their own right. The cars you learn in are NASCAR Winston competition Late Models.

Competition Driving Course **Two Day Driving Adventure \$3195**

(estimated laps 86)

Short Track Racing is where virtually every past or current NASCAR, INDY, ARCA, IMCA or ASA driver started. Short Track Racing Skills are something not to be left behind once a driver enters the "big leagues" The ratio of students to instructors at the FinishLine Racing School is 3 to 1, giving you the individual attention you need. Students are in constant Racing Radio communication with their race school instructors; allowing instructors to correct mistakes as they happen, give advice, and offer encouragement at every turn. The bottom line is that each student gets maximum seat time, each lap is logged and students can successfully obtain faster speeds each time out.

Race To Win/Advanced Course

Each student is critiqued after every one of their driving segments.

Three Day Driving Adventure \$4395

(estimated laps 138)

This three day race school course is designed to give the first time driver full exposure to short track racing. It also provides the experienced racer who has not yet reached the victory circle, the professional skills needed to go fast and take the checkered flag. Following the Competition Driving Course, you will further refine your skills and driving agility learned in the Late Model stock car. You will also have the chance to move into a NASCAR Grand American Modified. This 550 hp, open wheel race car, gives new meaning to excitement! An added attraction to the three day course is the possible chance to drive our new Super Truck!

What kind of race car will I drive?

FinishLine Racing School has several options. You may be driving V-8 NASCAR Late Models, NASCAR Grand American Open Wheeled Modifieds, NASCAR All Pro, Late Model Stock Truck, V-8 NASCAR Sportsman race cars, and or a new NASCAR Super Truck! Race car selection will be based on driver experience and instructor evaluation of your driving skills.

March 15,16,17
April 5,6,7 / 26,27,28
May 17,18,19
June 14,15,16
Oct 11,12,13
Nov 15,16,17
December 14,15,16

IMPORTANT RACE REQUIREMENTS

It is mandatory to be able to drive a 4 speed transmission - because of the high intensity curriculum at the FinishLine Racing School and the expensive equipment - you can not expect to learn the art of shifting on FinishLine Racing School equipment. We suggest you rent a 4 speed transmission rental car - and learn there first.

It's also mandatory to drive a race car with two feet, left foot on brake, right foot on throttle. You need to start practicing in your street vehicle now. If an instructor deems you unsafe in your driving style, you will not be able to participate in certain parts of the FinishLine Racing School program and are subject to lose part of your tuition.

FREQUENTLY ASKED QUESTIONS

Q: What is the FinishLine Racing Schools class size?

A: FinishLine Racing School limits each class to a maximum of 10 students.

Q: How many hours a day does the race school run at the race track?

A: We generally race from 8 am to 5 pm - minus a lunch break.

Q: What does my racing school tuition include?

A: The FinishLine Racing School supplies firesuits, nomex undergarments, helmets and gloves. We also supply course material and the race cars. Rental car, hotel, and meals are additional. All you need to bring is your comfortable shoes and a spirit for Adventure.

Q: What "teaching" equipment does FinishLine Racing School use in its racing curriculum?

A: We use the following tools for teaching:

Racing Radios: Students receive quality instruction via radio, allowing them to correct mistakes as they happen - so their driving time is not wasted time - every lap will count as a teaching tool. The radios are used for strategy, the preferred "line", and other technical tips.

Stopwatches: We use Longacre stopwatches and record every lap with written comments of each student's individual times - another teaching tool! We encourage students to learn from their times - what we are striving for is consistency - not speed - speed will come naturally.
