

This adventure happened in October of 2008. Click here for information on our next skydiving adventure.

## Gear, Etc

All necessary skydiving equipment will be provided for you. Jumping at such altitudes requires special parachute equipment which has been manufactured from very robust materials. We'll also provide you with a skydiving oxygen system that has been well proven at high altitude and is unobtrusive and non-restrictive. It's really cold on Everest, so we'll provide you with a thermal head cover in addition to head protection and protective goggles.

Each jumper or tandem team will also have a small personal survival kit, compass, firefly strobe, and two-way mini-radio in case of landing off the Drop Zone. Our expert team will make sure you're fully familiarized with all the jump and safety equipment.

Experienced, licensed skydivers will make their own test jumps so as to satisfy the Everest Skydive team— and themselves— that they are ready to make the ultimate High Altitude Skydive.

We'll be using a Turbine Pilatus Porter for our high-altitude jumps and a Russian Mi17 helicopter and Polish M-28 Skytruck for familiarization jumps. At the Drop Zone, we'll use an Equirrel B3 helicopter and local yaks to get around.

**941-346-2603**

## Prices for this Priceless Adventure

### Tandem Skydive **\$36,500\***

No skydiving experience is necessary for this incredible adventure. If you're in reasonably good health and meet the weight requirement you can make the jump of your life.

### Skydive **\$27,500\***

This option is available to experienced skydivers with a Class "C" or "D" license and at least 200 logged jumps.

### Bring or Be a Non-Jumper: **\$8,500\***

Do you want to bring a friend or family member that does *not* want to jump? No problem. They can enjoy the view, the hospitality, and the memories of a lifetime tagging along with you! Or, maybe you don't want to jump but wish to share in the adventure.

### Add 10 Days of Trekking: **\$1,500\***

Extend your incredible adventure with our "Everest Above and Below" guided trek. Pay a visit to Everest Base Camp and more.

## Pricing Notes

Airfare to and from Kathmandu, personal items, tips and such are not included in the price but just about everything else is... including:

- Accommodations at the 3-star Hotel Tibet in Kathmandu.
- All meals throughout, either at hotel or in designated best restaurants.
- Necessary Drop Zone preparation.
- Custom made high altitude jump suit.
- Video of the adventure.
- Official Certificate signed by pilots and organizers.

**\* All price estimated based on current and projected currency exchange rates.**

## The Skydive Everest Team

### TOM NOONAN

#### Strong Enterprises, Tandem Director

Tom is the Tandem Director for Strong Enterprises, one of the most respected manufacturers of tandem skydive equipment in the world.

### OMAR ALHEGELEN

#### World Champion Skydiver, Jumpmaster,

Omar helped to pioneer freeflying and has won every award in the category. He's completed over 14,000 skydives and is highly sought after to perform skydiving stunts for film, TV and movies.

### ANDY ELSON

#### Aeronaut, Cosmonaut, Life Support Specialist

Andy has flown by open balloon to over 40,000 feet more times than anyone in history. In 1991 he was the first balloonist to fly over Mount Everest. In 2002 he trained as a cosmonaut in Moscow.

### NIGEL GIFFORD OBE – Mountaineer, Skydiver, Adventure Logistician

Nigel is the creator of the Everest Skydive Adventure and the founder of High and Wild UK. A member of the team that successfully climbed Mt. Everest in 1976, Nigel has been returning to Nepal ever since.

### DAVE WOOD

#### Professional Skydiver, Chief Instructor

Dave retired from the Royal Air Force in 2006 after 32 years service to run his own Drop Zone in UK. Dave has made over 7,000 jumps; including over 2,500 High Altitude Low Opening (HALO) and tandem jumps.

### BEN WOOD

#### Professional Skydiver, Load Organizer & Aerial Photographer

Ben has over 3000 jumps and over 1200 camera jumps. He was a military skydive instructor and won Army skydiving championships in 2002 and 2003.

### RYAN DUKE

#### Ground Communications & Acclimatization

## Why Jump Everest?

- Be part of the first ever tandem skydiving program in front of Mt Everest (29,035ft.)
- You'll freefall past some of the world's highest mountains.
- You'll land on the highest drop zone *in the world*.
- It's a chance to experience the Himalayas from above and below.
- You'll visit Kathmandu and the Sherpa lands of the Everest region.
- Experience a High Altitude jump, with supplementary oxygen.
- There will be air-to-air video and photography on each jump.
- Be part of an elite group of international skydivers.
- It's one of the adventure world's utterly unique experiences.
- It's an incredible adventure!

Space is limited. Reserve your place in history today.

## Skydive Everest

You'll jump from a perfectly good airplane (one designed for high-altitude flight) and land on a perfectly good mountain in front of Everest. The Drop Zone for our Everest Skydiving Adventure was chosen with care. At 12,350 ft, it's the highest Drop Zone on the planet and it will exist only while we're there. Great care is being taken to have minimal impact on the environment. (Landing on Everest at Everest Base Camp isn't an option due to the dangerously rocky terrain.)

Our jump dates in Nepal are designed to cheat the 200 mph jet stream that roars across Everest's summit. Our first trip is slated for early October of 2008. For exact departure dates, give us a call at 941-346-2603.
